To whom it may concern:

This letter is in regards to Raymond "Sketch" Gustafson. It is with my pleasure that I write and highly recommend him. In my many years of working with many other forms of advertising media and ad reps, I was not at all aware of how the internet or web sites were used and developed.

Four years ago, when Sketch's wife started to work for us, a web site was not in the future for H & F Home Furnishings. Three-and-a-half years later, it has become evident that the future is here. After contacting and meeting with a few different web sight designers, expressing what I thought I would want to achieve by having a site for our business and after receiving their proposals, I realized that our budget wasn't quite ready for the future.

Sketch's wife, Shannon, mentioned she knew her husband was more than qualified to develop a web site for us as he had done others. She spoke with Sketch and a few days later here he is with a preliminary for me to view; he turned my not so good experience completely around after quoting me an approximate figure to make this happen. He took it upon himself to pursue looking for a host for our site, that price also, fit our budget and was a success once more. He has worked with us in fine tuning the preliminary to meet our exact needs and we were up and running in a matter of days.

The end result was done quickly, professionally and very economically. It has been a pleasure working with Sketch on a professional level. We look forward to working with him in the future keeping our web sight updated as changes occur, posting our weekly ad is one of the updates he will be doing for us. Getting our name out there in one more way and within our budget. We owe him many Thanks.

Sincerely,

Mary K Helmer
