

Sketch Gustafson has a great rapport with people.

He is excellent with children, and has great patience. He is always willing to answer the most mundane questions, and has a great sense of humor.

He is very professional, and follows through with what is asked of him.

Young and old enjoy his presentation. Everyone was impressed with his drawings, and with how quickly he is able to produce them!

He is able to make a drawing or caricature of anyone (including librarians and teachers)!!!!

Sketch makes everyone feel comfortable. Children and adults are not afraid to try to draw. He stresses that there is no right or wrong way to do things...creativity, imagination, and fun are the order of the day.

Sketch is organized, thorough in his presentation, and is always on time.

Sketch has done an excellent job and I would highly recommend him for your organization. Please let me know if I can provide you with any further information.

Respectfully,

Doris Ronnander
