To whom it may concern,

Over the past several years Sketch Gustafson has been very beneficial to the ministry of Teens for Christ in regards to his graphic design abilities and his art work. He has produced t-shirt layouts, designed fliers and brochures, and drawn covers for booklets that we have used in our work with teens.

Sketch has shown mastery of many softwares and electronic hardwares while working on design projects for us. He has been involved in digital picture taking and editing. He has captured quite a bit of video footage for us and offered many helps in bringing about promotional videos that get used across our ministry.

One of the current projects that Sketch has undertaken is to transfer and layout our old camp booklet (50 pages) from Pagemaker files into Publisher files. In so doing, he has produced many advertisement, designed pages explaining our camp layout, and finalized the design of the cover.

I am happy to recommend that you employ Sketch Gustafson in whatever area of graphic design, publication, or multimedia work that you may need done.
